Professional Summary

Frontend Developer with 1.5 to 2 years of experience building responsive, production-ready web interfaces using React.js, Next.js, and TypeScript. Delivered features across diverse project types, including E-commerce platforms, Admin Dashboards, and CRM systems, with strong REST API integration, reusable components, and authentication/OTP flows. Converts Figma designs into responsive React components and collaborates closely with backend developers to ship production features, applying performance optimization and clean code practices throughout.

Core Skills & Tools

- **Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Frameworks & Libraries:** React.js, Next.js, Tailwind CSS, Context API, Redux Toolkit, Zustand
- **API, State & Data:** REST APIs, Axios, Context API, TanStack Query
- **Forms & Validation:** React Hook Form, Zod
- **Tools & Platforms:** Git, GitHub, Figma, WordPress, Shopify Basic
- **Practices:** Responsive Design, Reusable Components, Performance Optimization, Lazy Loading, Code Splitting

Professional Experience

Romoz Tech

Aug 2025 – Dec 2025

Frontend Developer (React) | On-site

- Developed frontend features for a Saudi classifieds and jobs platform (similar to Haraj) using React.js, Context API, Tailwind CSS, HTML5, CSS3, and JavaScript.
- Built authentication and OTP flows for secure user login and account verification.
- Implemented user profile and edit-profile screens connected to REST APIs.
- Developed dashboard interfaces and ads-system features for posting and managing listings.
- Integrated REST APIs using Axios in collaboration with backend developers.
- Converted Figma designs into responsive React components across mobile and desktop breakpoints.
- Built the M-Force construction company landing page with Email and WhatsApp OTP flows.

Projects

Project Management Web App

Jul 2026 – Sep 2026

[Live Demo](#)

Tech: Next.js, TypeScript, Tailwind CSS, React Hook Form, Zod, Fetch API, Toast, react-date-picker

- Sole frontend developer on a full-featured project and task management system (Jira/Trello/ClickUp-inspired), delivering 100% of the UI over a 2-month development cycle.
- Built a complete authentication system (sign-up and login) with forgot-password and reset-password flows.
- Implemented "Remember Me" functionality alongside refresh-token handling to keep user sessions persistent and secure.
- Delivered a fully responsive UI across mobile and desktop screens.

Admin Dashboard

github.com/Mohamed-Gabal/admin-dashboard | [Live Demo](#)

Tech: Next.js, React, TypeScript, Tailwind CSS, TanStack Query, React Hook Form, Zod, REST APIs

- Built a Next.js and TypeScript dashboard application with authentication and roles/permissions.
- Implemented REST API data fetching and caching with TanStack Query.
- Added form validation using React Hook Form and Zod with reusable components.
- Implemented dark/light mode and a responsive dashboard UI with a clean, maintainable structure.

Education & Languages

Higher British Institute (IPI) – Information Systems

Graduated 2023

Arabic – Native | English – Good
